

Repository link: <https://github.com/ericdotcho/cmpt220cho.git>

The screenshot shows a web browser window displaying the GitHub profile of Eric Cho (ericdotcho). The browser's address bar shows the URL <https://github.com/ericdotcho>. The profile page includes a blue and white pixelated avatar, the name "Eric Cho" with the username "ericdotcho", and a button to "Add a bio". It also shows "Joined a day ago". The "Overview" tab is active, displaying statistics: 1 repository, 0 stars, 0 followers, and 0 following. A "Popular repositories" section lists "cmpt220cho". A "2 contributions in the last year" section shows a calendar grid with two green squares in August. A "Contribution activity" section shows a timeline event: "Created their first repository" on August 30, 2018.

Quick setup — if you've done this kind of thing before

Set up in Desktop or HTTPS SSH https://github.com/ericdotcho/cmpt220cho.git

We recommend every repository include a [README](#), [LICENSE](#), and [.gitignore](#).

...or create a new repository on the command line

```
echo "# cmpt220cho" >> README.md
git init
git add README.md
git commit -m "first commit"
git remote add origin https://github.com/ericdotcho/cmpt220cho.git
git push -u origin master
```

...or push an existing repository from the command line

```
git remote add origin https://github.com/ericdotcho/cmpt220cho.git
git push -u origin master
```

...or import code from another repository
